JDS - Journal of Decision Systems

Special Issue on Integrated Decision Support Systems by Euro Working Group on Decision Support Systems (EWG-DSS)

This Special Issue aims to publish original papers devoted to integrated decision support systems (IDSS). Specific topics to be covered include the integration of decisions across business function areas (including operations, marketing, human resources, accounting and finance); integration of decisions across product lifecycle stages (e.g. design, manufacture, use, maintenance and recovery); integration of decisions along supply chain activities (both supply side and demand side decisions regarding sourcing/purchasing, production, distribution and retailing); integration of decisions across both forward supply chains and reverse logistics; integration of decisions addressing multiple objectives (such as environmental, economic and social bottom lines); integration of multiple sources of data/information and knowledge; and integration of different decision methods and technologies to improve business performance.

The Special Issue will contain high quality papers that will be selected and extended from the **Joint International Conference on Group Decision Making and Web 3.0** organized by the EWG-DSS and INFORMS GDN Section to be held in Toulouse, France, between 10 and 13 June 2014 And the **IFORS International Conference – DSS Streams** to be held in Barcelona, Spain, from 13 to 18 July 2014.
