Call for papers

**HCSE** is a working conference that brings together researchers and practitioners interested in strengthening the scientific foundations of user interface design, examining the relationship between software engineering and human-computer interaction and on how to strengthen user-centred design as an essential part of software engineering process.

**Topics** (not limited to):

- Integration of software engineering and user-centred design
- HCI models and model-driven engineering
- Incorporating guidelines and principles for designing usable products into the development processes
- Usability engineering
- Methods for user interface design
- Patterns in HCI
- Software architectures for user interfaces
- User interfaces for ubiquitous environments
- Representations for design in the development process
- Working with iterative and agile process models
- Social and organizational aspects of software development in a lifecycle perspective
- User experience and software design
- Case studies and tools

**Publisher:** Springer LNCS

**Important Dates**

- Submission (all tracks): May 28, 2012
- Camera-ready: July 17, 2012
- Conference: October 29-31, 2012

**Organizers**

- Marco Winckler, University of Toulouse, France
- Peter Forbrig, University of Rostock, Germany
- Regina Bernhaupt, University of Toulouse, France

**Contact:** organizers@hcse-conference.org
